

# OneView

## Workforce Planning, Management and Forecasting For Offshore Operations

The offshore engineering and energy sector requires precise workforce management in high-risk environments. OneView streamlines scheduling, compliance tracking, and logistics to ensure certified personnel are deployed efficiently, reducing downtime and enhancing safety. With real-time oversight of movements, drills, and emergency preparedness, OneView keeps you compliant while optimising workforce planning.

### One Source of the Truth

Access real-time workforce data for accurate planning and informed decision-making.

### Rapid Response

Quickly deploy certified offshore personnel quickly adapting to crew changes, weather disruptions, or urgent project needs.

### Safer Deployment

Deploy certified, fit-for-duty personnel and track safety compliance and logistics for seamless crew transfers.

### Better Forecasting

Predict offshore crew needs using real-time insights and data to avoid delays, ensure shift coverage, and minimise downtime.

### Easier Integration

OneView's open API seamlessly connects with HR, compliance, and logistics systems, reducing manual workload and improving data accuracy.

## Why OneView

- **Save up to 20%** in time by streamlining scheduling & reducing admin work
- **Cut 15% in costs** through smarter resource allocation
- **Ensure compliance** with automated tracking & reporting
- Gain **real-time insights** for data-driven decision-making
- Enhance **staff retention** with better workforce planning
- Drive **accurate travel** planning using up-to-date personnel data
- Enable **timely communication** using My OneView
